Hi,

I won't say anything during the management conference but will call her tomorrow anyway because she was going to be contacting the NEP Directors on the meeting. I think that they are frustrated too with ODF.

Bevin

Hi, Bevin,

Dave was in a unit meeting not be able to respond.

Lisa will remember some of our conversation at the NEP director's meeting here where we talked about this issue.

We have worked with DEQ, ODF and others for over a decade, perhaps almost 15 years, to address CZARA issues. It would be nice to have TEP's support to get the state to address the concerns instead of asking NOAA to provide yet more time for the state to comply.

Given there is litigation driving this, we should not get into this really. You and I are not aware of all that is going on.

Paula

**Importance:** High

Dave,

Paula asked that I forward this letter to her and to you. It is regarding the CZARA 319 issue in Oregon and the impact that it will have on their program. I just received the message this morning. They will be discussing it this afternoon at their Board meeting which starts at 3. In a situation like this, I try to offer information about the EPA program. I mentioned to Paula that the letter is well thought out and makes some good points about the impact to their program.

If there is anything that you or Paula think that I should convey to them this afternoon or to Lisa directly, please let me know.

Thanks,  
Bevin

Hello, All,

If you could look over the attached letter, I would appreciate it. We will be reviewing and discussing at our meeting on Tuesday. For Denise and Bob R, if you would like to comments to me, that would be great. If we mail it off, it needs to go out by March 20th.

What I really want to know is if it feels like a good direction, if the tone is proper, and if it gets the point across - which is, 2 WRONGS DON'T MAKE A RIGHT. Maybe it is not that loud, but hopefully, it is clear. :)

Thanks,  
Lisa

Hello,  
I apologize for the delayed notice but this is a reminder that you have your regularly scheduled board meeting set for next Tuesday, March 18th at 3:30pm. The agenda and financials will go out this weekend.

Also, again, if you would like to stop by the Children's Clean Water Festival that day for lunch or to just walk around, let me know by Monday.

See you on Tuesday.

Lisa
